PROFILE

Computer Science undergraduate with strong foundation in Python, data analysis, and software development. Experienced in building data-driven applications and analyzing datasets. Seeking internship opportunities in Data Analytics or Software Development.

EDUCATION

B.Tech – Computer Science Engineering

2023 – 2027

Bennett University, Uttar Pradesh

Senior Secondary (CBSE)

2022

Inderprastha Convent School, New Delhi

EXPERIENCE

Intern

Nov 2025 – Dec 2025

Hex Softwares Pvt. Ltd. (Remote)

- Developed and optimized C++ programs using data structures and algorithms
- Improved code efficiency through debugging and structured logic implementation

AWS APAC Solutions Architecture Virtual Internship

Jul 2025

Forage

- Designed scalable cloud architecture using AWS Elastic Beanstalk
- Created deployment strategies and performed cost analysis

PROJECTS

Taste Junction – Canteen Ordering System

- Developed a Flask-based canteen ordering system with MySQL backend
- Implemented order processing and responsive UI using HTML and CSS

Resume Analyzer (InternHunt)

- Built a Python-based system to extract resume skills using NLP techniques
- Suggested relevant skills and courses using Streamlit interface

Stock Sentiment Analysis

- Performed sentiment analysis using TextBlob on financial data
- Visualized stock trends using Plotly for insights

SKILLS

Programming: Python, C++, SQL

Web Development: HTML, CSS, Flask

Data Analysis: Pandas, NumPy, Matplotlib, Plotly

Machine Learning / NLP: NLP, RNN (Basics), LSTM (Basics)

Big Data Technologies: PySpark, Apache Hive

Tools: GitHub, VS Code, Excel, Google Colab

CERTIFICATIONS

- DSA for Interview Preparation Classroom Program
- Object-Oriented Data Structures in C++
- Text Retrieval and Search Engines
- PySpark & AWS
